TO WHOM IT MAY CONCERN

I have become aware that our local library, Cramahe Township Public Library, is applying for the Learning & Engagement Accelerator Fund (L.E.A.F.) run by the Commonwell Mutual Insurance Group.

Our Library is hoping to build an outdoor pavilion in the outdoor garden space created earlier this year. This Library building is a trusted community hub, providing children, adults, and seniors with a safe, welcoming, and engaging space. They offer many resources and services and wonderful creative programming. Despite its important role in the community, the facility has limited physical capacity with only one programming room to support all programming needs. This means staff are constantly rotating furniture to suit the needs of the diverse community age groups who attend the different programs offered. A covered outdoor pavilion would enhance the Library's capacity to deliver programming and learning opportunities, creating a flexible space that fosters community connection, social engagement, and mental wellness.

I would like to take this opportunity to say, on behalf of our Cramahe community, I fully support this project and our library's request for funding.

We would greatly appreciate your support and partnership in making this project a reality.

Yours

Mayor Mandy Martin and Council
Township of Cramahe
