Rockland Community Garden Authorization Letter

Design and construction of a pathway in Patricia-Charron Park

To Whom It May Concern:

On behalf of the City of Clarence-Rockland's Community Development Department, this letter formally authorizes the Rockland Community Garden Executive Committee to proceed with the design and construction of a 370-metre-long accessible multi-use pathway in Patricia-Charron Park, located at 2637 Raymond Street.

The proposed pathway will begin at the park entrance and parking lot on Raymond Street, extend through the park and community garden, and conclude at Patricia Street.

The City strongly supports this initiative, recognizing its potential to deliver significant benefits to the community. This pathway will create a welcoming, inclusive, and peaceful environment that promotes accessibility, social connection, and community engagement. It will not only enhance the usability of the park but also exceed provincial accessibility standards, ensuring that all residents—regardless of ability—can participate in gardening, knowledge sharing, and collaborative community-building.

We commend the Rockland Community Garden Executive Committee for their leadership and vision in advancing this project, and we look forward to working together to bring this meaningful initiative to life.

Sincerely,

Martin Irwin
